

I have been using XM radio for a while now and not only do I enjoy the freedom to choose what type of music and or entertainment I want at any particular time, but as a salesman I listen to the traffic reports all the time. Living in the NJ/ NY area I do have traffic reports on broadcast radio available to me but with XM radio I can get the crucial traffic information I need when I want it, not only when the regular stations report it.

I respectfully urge the FCC to reject petition 04-160
Competition is good for all types of business including broadcast media.
XM radio does a terrific job.
